OATH

As the below named inventor, being duly sworn, I depose and say that my residence, post office address and citizenship are as listed below next to my name; that I believe myself to be the original, first and sole inventor of an INVERTER POWER SUPPLY CIRCUIT, which invention is described and claimed in U.S. patent application Serial No. 07/636,246 filed 12/31/90; which application Serial No. 07/636,246 is a continuation of application Serial No. 06/787,692 filed 10/15/85, now abandoned; which application Serial No. 06/787,692 was a continuation of application Serial No. 06/644,155 filed 08/27/84, now abandoned; which application Serial No. 06/644,155 was a continuation of application Serial No. 06/555,426 filed 11/23/83, now abandoned; which application Serial No. 06/555,426 was a division of application Serial No. 06/178,107, now abandoned; that I do not know and do not believe that the same was ever known or used before my invention thereof, or patented or described in any printed publication in any country before my invention thereof, or more than one year prior to this application, or in the public use or on sale in the United States more than one year prior to this application; that said invention has not been patented or made the subject of an inventor's certificate in any country foreign to the United States on an application filed by me or my legal representatives or assigns more than twelve months prior to this application; that I acknowledge my duty to disclose information of which I am aware and which I believe to be material to the examination of this application in accordance with 37 CFR 1.56(a), including material information of which I became aware between the filing date of application Serial No. 06/178,107 and the filing date of application Serial No. 07/636,246; that said invention has not been patented or made the subject of an inventor's certificate issued before the date of this application in any country foreign to the United States of America; and that I have reviewed and that I do understand the contents of the specification and the claims.
